

Villa Nurтан

The Garden

Villa Nurtan

Welcome to Villa Nurtan in Orhaniye, Bozburun Peninsula, Turkey. This premium villa has mainly been built by local craftsmen from the village so is a wonderful example of wonderful quality and pride, built in solid stone with most fittings and furniture hand-made in the village workshops.

It is set alone in the beautiful valley location, surrounded by olive trees and open fields. Our guests love the peace and tranquility that oozes from Villa Nurtan. Experience it yourself.

Garden

Rafet, Villa Nurtan's full-time caretaker takes great care in the garden and is rightfully proud of his results. In little over three years he has established a mature and varied garden.

We have drilled a 80 metre deep well in the garden in order to provide the plants and grass with sufficient water to give them ideal growing conditions. We also use irrigation systems to ensure that the shrubs are drip fed water in the evenings.

As well as a wide range of flowers, we also have a selection of fruit trees and vegetable garden that supplies our guests with plenty of fresh produce throughout the season.

Orhaniye

Orhaniye is a peaceful village set in a beautiful bay in the Aegean Sea. Orhaniye is perfect for you if you are looking for a relaxing family holiday to escape the pressures of modern life.

Here you will experience a rural Turkish village where the pace of life lets you unwind and appreciate the beautiful scenery and nature.

Orhaniye is located on the Bozburun Peninsula, a protected nature area, equivalent to a National Park, so development is restricted and low key.

A close-up photograph of a tree trunk, showing the intricate, layered, and deeply textured bark. The bark is dark brown to black, with prominent vertical ridges and deep grooves, giving it a rugged and weathered appearance. The lighting highlights the uneven surface, creating a sense of depth and texture.
